- ✓ World-renowned craftsman (see precisemodeling.com).
- ✓ Creative thinker and problem solver.
- ✓ Quick learner.
- ✓ Utmost attention to detail.
- ✓ Speak English, Ukrainian, Russian, and basic Polish

Co-Founder, Precise Modeling

Edmonton, Alberta / 2000-

Precise Modeling is my family business. Each year we work on just a handful of custom scale models. Most live in private collections. Our clients range from highly acclaimed private collectors to the biggest aviation museums in the world. My creations have won numerous prestigious awards and have been featured in various publications across the globe.

Designer/Maker, Ellis Associates Architectural Models

Edmonton, Alberta / 2001-2016

Ellis Associates is one of the most well-known architectural model shops in Canada with clients all throughout the country and abroad. The shop's reputation was built on hard work and dedication to the highest standards in the model-making industry.

Designer/Maker, Antonov Design Bureau

Kiev, Ukraine / 1983-2000

Antonov DB is one of the most well-known European aircraft manufacturers. For the past 70 years, the bureau has won hearts of many through production of purposeful, long-lasting (the very first design is still in active use), easy-to-maintain aircraft which perform just as good as they look. My cross-disciplinary ability took me to countless projects over the years from design and build of scale model aircraft to creation and inception of real aircraft.

Technician/Assembler, Factory of Computer Hardware and Control Devices

Kiev, Ukraine / 1980-1983

1st Category Technician/Assembler of radio equipment and radio devices with specialization in circuit boards.

Research & Development, Institute "Kvant"

Kiev, Ukraine / 1976-1980

1st Category Assembler of instruments and equipment, where I troubleshoot and repaired electromechanical instruments for nuclear submarines.

Alex Sklyar

@ alex@alexsklyar.com

Edmonton, Alberta
